INVEST IN YOUR FUTURE

Whether you’re looking for a better job, a promotion, or just an increase in salary, a degree from Ivy Tech Community College of Indiana can help you get what you want. We offer the most affordable tuition in the state, credits that transfer, campuses close to home, flexible schedules, and online classes, making Ivy Tech the perfect choice for career-minded students. All of our programs are developed with input from employers in today’s fastest-growing fields, giving you a relevant, career-focused education. Our goal is to help you make the most of your time—and your future.

If you want to put your creativity to work, Ivy Tech’s School of Fine Arts and Design can help you get started on a great career. You’ll learn how to develop your ideas into reality, using your hands, your head, and a little help from technology. Ivy Tech Community College gives you the credentials to continue your education at a four-year institution or enter the job market to earn a good-paying job right out of college. Change your life, and change your future, by earning a degree or certificate from Ivy Tech. Contact us today to learn more about programs offered in your area.

Information is valid as of this document’s publication date. Please visit www.ivytech.edu for the most up-to-date information.

TYPES OF DEGREES OFFERED AT IVY TECH COMMUNITY COLLEGE

At Ivy Tech, you can earn a variety of two-year degrees as well as one-year technical certificates. Before you enroll, check with your local campus to see what types of degrees or certificate programs are available in your area of study. An admissions counselor can help you choose an option that matches your career aspirations.

The ASSOCIATE OF APPLIED SCIENCE (AAS) DEGREE prepares students for a career.

The ASSOCIATE OF ARTS (AA) DEGREE prepares students to transfer to a four-year college or university. The curriculum is almost entirely made up of general education and liberal arts courses.

The ASSOCIATE OF FINE ARTS (AFA) DEGREE prepares students for transfer to a related program at a four-year school or a career in the fine arts.

Two kinds of ASSOCIATE OF SCIENCE (AS) DEGREE programs are available: programs for technical/professional fields and for liberal arts. AS programs in technical and professional areas prepare students to start their career or to transfer to four-year institutions. AS liberal arts programs prepare students for transfer to four-year colleges or universities.

The CERTIFICATE can be completed in fewer credit hours than other types of academic programs. Certificate programs prepare students to sit for a certification exam in a short amount of time, and are offered in fields most likely to lead to employment or promotion.

The TECHNICAL CERTIFICATE (TC) is a one-year program that provides education in conceptual and technical skills for specific occupations.

SCHOOL OF FINE ARTS AND DESIGN PROGRAMS

DEGREE/CERTIFICATE PROGRAMS

Ivy Tech Community College offers more than 150 programs and concentrations statewide, including in the traditional classroom setting and online. The chart below includes all of our School of Fine Arts and Design programs in bold text, along with the concentrations offered through these programs, where applicable. Art. Design. Fashion. Photography. No matter what sparks your creativity, there’s a career waiting for you in Fine Arts. With an associate degree from Ivy Tech Community College, you’ll have the skills employers are looking for, and you’ll learn how to make the most of your talent and vision.

As a Visual Communication professional, you’ll work in the medium of your choice. From film and photography to graphic design and web design, it’s your chance to create work that leaves a lasting impression. This concentration goes beyond the basics to give you advanced skills and knowledge in your particular field of interest. You’ll develop real-world internship and design exhibit opportunities, along with a print and media portfolio that will be critiqued by experienced professionals.

**FILM AND VIDEO**
This concentration exposes you to a broad technical core of courses representing key topics such as organizing the visual fields, color theory and application, image acquisition and manipulation technology. You’ll also receive hands-on experience operating television, video, and motion picture cameras.

**GRAPHIC DESIGN**
As a graphic designer, you’ll create 2-D commercial designs for print. This concentration gives you a strong background in production, printing, planning, business issues, and web design and its relationship to print.

**MULTIMEDIA PRODUCTION**
With a concentration in Multimedia Production, you can learn how to create special effects, animation or other visual images using film, video, computers or other electronic tools or media. Careers in this field include work with computer games, movies, and videos.

**PHOTOGRAPHY**
A good photo can tell a story, provide inspiration, and capture a moment. Learn how to make the most of your vantage point behind the camera, along with digital editing skills, business skills, and a thorough exploration of different equipment and techniques.

**WEB DESIGN**
Professionals who can design websites that are easy and enjoyable to use are in high demand. Ivy Tech’s Web Design concentration gives you the credentials you need to start your career in this exciting field. You’ll learn how to develop interactive content for CD/DVDs and websites, and how to incorporate digital video and sound editing into your designs.

**WEB DEVELOPMENT**
Learn the creative and technical aspects of Web Development in this hands-on concentration. You’ll receive instruction in all aspects of web development, including design and interactive media.

**INTERIOR DESIGN**
Ivy Tech’s Interior Design program helps you get started in a career creating functional, safe, productive and aesthetically pleasing interior and exterior environments for work, home, health and recreation. You’ll investigate a wide range of topics, including the interaction between human beings and their environments, design conception and problem-solving, materials specification, project management and more. As you finish your studies, you’ll develop an exit portfolio and resume demonstrating your skills and knowledge, which also will prepare you to pursue job opportunities.

**DECORATIVE ARTS AND DESIGN**
Ivy Tech’s Decorative Arts and Design concentration includes classes on everything from three-dimensional design to visual merchandising. You’ll learn how to turn your eye for detail into a skill that’s in demand.

**GARDEN DESIGN**
Do you have a green thumb? As a garden designer, you’ll be able to put it to use. This concentration gives you the skills to design and maintain appealing natural spaces.

**INTERIOR DESIGN**
As an interior designer, you’re responsible for the decoration, design and functionality of your client’s space. In Ivy Tech’s Interior Design concentration, you’ll learn how to design stylish, functional interiors for both home and work settings.
