INVEST IN YOUR FUTURE

Whether you’re looking for a better job, a promotion, or just an increase in salary, a degree from Ivy Tech Community College of Indiana can help you get what you want. We offer the most affordable tuition in the state, credits that transfer, campuses close to home, flexible schedules, and online classes, making Ivy Tech the perfect choice for career-minded students. All of our programs are developed with input from employers in today's fastest-growing fields, giving you a relevant, career-focused education. Our goal is to help you make the most of your time—and your future.

When you want an affordable start to a four-year degree in a liberal arts or science field, Ivy Tech Community College is a great choice. By taking your first two years of classes at Ivy Tech, you can save an average of 50 percent in tuition costs. You’ll be prepared to transfer to a bachelor's degree-granting college or university, and you’ll leave school with considerably less debt. Change your life, and change your future by earning a degree from Ivy Tech Community College. Contact us today to learn more about programs offered in your area.

To learn more about employment and salary information for the careers described in this brochure, visit the U.S. Department of Labor’s Bureau of Labor Statistics website at www.bls.gov and the Indiana Department of Workforce Development website at www.in.gov/dwd.
With an associate of science degree in General Studies from Ivy Tech Community College, you’ll have the foundation you need to pursue a four-year degree. General Studies is an individualized, multi-disciplinary program that gives you a great deal of flexibility in choosing a career path. In completing this degree, you acquire a broad educational background that allows you to choose a major as a college junior when you transfer to a four-year college or university.

A degree from Ivy Tech Community College gives you the flexibility to choose what’s right for you. And for many of our students, including Liberal Arts majors, that means credits that transfer to other colleges and universities. In just two years, Ivy Tech can get you closer to the degree you want, and our affordable tuition means that you’ll graduate with much less debt. No matter where you want to end up, Ivy Tech Community College is a great place to start.

“At Ivy Tech I’m surrounded by people who care about me and where I’m headed.”

— Lara Ritz, Ivy Tech Community College student
Ivy Tech’s Liberal Arts program provides you with an associate of science or associate of arts degree so you can transfer to a four-year college or university to complete a bachelor’s degree in a Liberal Arts major. You’ll receive broad exposure to a traditional Liberal Arts course of study, including art, English, literature, psychology, philosophy, music, sociology, history, social sciences, and laboratory sciences. Although most studies use this degree as the foundation of a bachelor’s degree, you can also start a career in select fields.

ENGLISH AND COMMUNICATION
Ivy Tech’s English and Communication concentration focuses on composition, communication, and literature. Sharpen your critical thinking and communication skills and prepare to transfer to a four-year college or university English program.

FOREIGN LANGUAGE
There have never been more career opportunities for bilingual speakers. Ivy Tech’s foreign language concentration gets you started on a four-year degree, giving you the fundamentals you’ll need to succeed.

HUMANITIES
Ivy Tech’s Humanities concentration brings together studies in history, literature, philosophy and other related disciplines. Students will learn valuable critical thinking and analytical skills and be prepared to continue on toward a bachelor’s degree in Humanities.

LIFE AND PHYSICAL SCIENCES
Our Life and Physical Sciences concentration is designed for students who plan to pursue further study in science. Classroom and laboratory time will prepare you to continue on to a bachelor’s degree in the field of your choice.

MATHEMATICS
Study algebra, geometry, calculus, and other topics in math at Ivy Tech Community College, and you’ll be ready to move on to a four-year degree in this field.

SOCIAL AND BEHAVIORAL SCIENCES
As a student in Ivy Tech’s Social and Behavioral Sciences concentration, you’ll study human behavior and social and economic systems in preparation for further study in economics, political science, psychology, or sociology.

“At Ivy Tech, whenever I had a question, my instructors would sit down with me and help me. They’ll do anything for you. It was a very, very positive experience.”

— Lisa Schoenradt, Ivy Tech Community College graduate
No matter what career you’re considering, communications skills are in high demand by employers. Ivy Tech’s Professional Communication concentration provides you with the problem solving skills, communication and writing abilities, and background you need to succeed on the job or through further study at a four-year college or university. In this interdisciplinary program, students take coursework in the fields of communication arts, English, and electronic media, where you’ll learn to customize messages for specific audiences and environments. Your classes also will teach you how to plan and manage communication projects both individually and as part of a team, design and use graphics effectively, and develop a clear writing and presentation style.

“I had the most dedicated group of instructors anyone could ask for. They helped me reach my goals, and I landed the job I wanted two weeks before graduation.”

— Michael Ries, Ivy Tech Community College graduate

**DEGREE: ASSOCIATE OF SCIENCE**

**TYPES OF DEGREES OFFERED AT IVY TECH COMMUNITY COLLEGE**

At Ivy Tech, you can earn a variety of two-year degrees as well as one-year technical certificates. Before you enroll, check with your local campus to see what types of degrees or certificate programs are available in your area of study. An admissions counselor can help you choose an option that matches your career aspirations.

The **ASSOCIATE OF APPLIED SCIENCE (AAS) DEGREE** prepares students for a career.

The **ASSOCIATE OF ARTS (AA) DEGREE** prepares students to transfer to a four-year college or university. The curriculum is almost entirely made up of general education and liberal arts courses.

The **ASSOCIATE OF FINE ARTS (AFA) DEGREE** prepares students for transfer to a related program at a four-year school or a career in the fine arts.

Two kinds of **ASSOCIATE OF SCIENCE (AS) DEGREE** programs are available: programs for technical/professional fields and for liberal arts. AS programs in technical and professional areas prepare students to start their career or to transfer to four-year institutions. AS liberal arts programs prepare students for transfer to four-year colleges or universities.

The **CERTIFICATE** can be completed in fewer credit hours than other types of academic programs. Certificate programs prepare students to sit for a certification exam in a short amount of time, and are offered in fields most likely to lead to employment or promotion.

The **TECHNICAL CERTIFICATE (TC)** is a one-year program that provides education in conceptual and technical skills for specific occupations.
