Ivy Tech Community College’s Summer Youth Learning Program is back with new and different fun courses for youth ages 11-18. For middle school students ages 11-14 years, College for Kids returns with an expanded program. Our Traditional College for Kids is back for three fun-filled weeks. And check out “Get into Energy” and “Eco-Explorer”, “Red Hot Ballroom Dance”, “Battle with the Bard” or “The Six O’clock News Show” for additional fun learning opportunities. Don’t miss the chance to brush up your academic skills with ISTEP Enhancement! IVY Academy - for high school students – continues with courses designed to facilitate the transition to maturity.

Middle School Students (ages 11-14) can spice up their summer with learning fun at Ivy Tech Community College. Choose from all kinds of classes – learn a new skill or polish an old one - and more.

To make it easier for parents, Morning Supervised Waiting is available for each of our youth programs. Games and videos will be available for use or students may bring a book from home. See the course numbers and descriptions at the end of program listings.

The Traditional College for Kids program returns with old favorites and includes some new offerings for Summer 2008. Dates are June 9 - 13, July 7 - 11, and July 28 - August 1. Choose one class or fill the day with four classes - the choice is yours.

YOUTH COURSES

AGES 11-14

Acrylic Painting
Learn basic use of color and blending techniques and brush stroke styles. Beginning and advanced students welcome. Students may choose a still life or paint from a photo of their choice. Includes take-home brush set and two canvases.

Instructor Name: Kristi Bryant

Location: TBA

550 12147L081 5 sessions MTWThF Jun 9 - Jun 13 8-9:50 A.M. $75
550 12148L081 5 sessions MTWThF Jul 28 - Aug 1 8-9:50 A.M. $75

Aeronautics and Aquatics - The Physics of Flight and Flotation
Fascinated by the forces that facilitate flight and flotation? Discover the principles that make these phenomena possible by designing and building your own planes, boats, and rockets, and testing them against your classmates’ creations.

Instructor Name: Kim Foltz

580 12139L081 5 sessions MTWThF Jun 9 - Jun 13 8-9:50 A.M. $55
580 12140L081 5 sessions MTWThF Jul 7 - Jul 11 8-9:50 A.M. $55

Archery
The new archery is a precision sport of target practice, requiring careful aim, a strong arm, and a firm stance. Learn the basics of archery, including safety, archery equipment use and maintenance, proper stance, aiming, release, and follow through. Develop proper shooting techniques. Class limited to 10 students. Two sessions, one for ages 11-12, and 13-14 years of age.

Instructor Name: Bob Kapperman, Level 2 Archery Instructor, National Archery Association

580 12165L081 5 sessions MTWThF Jul 7 - Jul 11 8-9:50 A.M. (Ages 11-12) $65
580 12166L081 5 sessions MTWThF Jul 28 - Aug 1 8-9:50 A.M. (Ages 13-14) $65

Around the World in Five Days!
This kaleidoscopic program allows students to explore the world, its people and their cultures through language, art, music, story telling, games and food. Participants are introduced to a different continent each day to experience one or more cultures within its borders.

Instructor Name: Carol Youngs

550 12170L081 5 sessions MTWThF Jul 7 - Jul 11 12:30-2:20 P.M. $65
550 12171L081 5 sessions MTWThF Jul 28 - Aug 1 12:30-2:20 P.M. $65

Artist Trading Cards
The popular new trend amongst artists and hobbyists!

Learn to make Artist Trading Cards, a great way to express yourself and your creativity! Artist Trading Cards are 2.5” by 3.5” cards that are created as unique as you are! There are no rules to making these cards (they can be made out of almost anything) except that they must be traded, not sold. The face-to-face trading is considered an integral part of the concept. Come and have fun expressing your creativity!

Instructor Name: Kristi Bryant

550 12167L081 5 sessions MTWThF Jun 9 - Jun 13 2:30-4:30 P.M. $71
550 12168L081 5 sessions MTWThF Jul 7 - Jul 11 2:30-4:30 P.M. $71
550 12169L081 5 sessions MTWThF Jul 28 - Aug 1 2:30-4:30 P.M. $71

Battle with the Bard: Shakespearian Stage Combat
So you think Shakespeare is boring? You will be surprised to learn that his plays are full of action. You will work on some of the great fight scenes from Shakespeare’s plays. This is a safe and fun introduction to stage combat, including some sword work, as well as some basics of speaking the language of Shakespeare. Learn how to safely create a combat sequence, integrate it into a scene, and perform it in an exciting presentation. Learn improvisational theater; develop spontaneity, creativity, teamwork, problem-solving skills and listening skills in the popular workshop. No prior theater experience necessary.

Instructor Name: Ann Hefner

550 12142L081 5 sessions MTWThF Jun 9 - Jun 13 12:30-2:20 P.M. $61
550 12143L081 5 sessions MTWThF Jul 7 - Jul 11 12:30-2:20 P.M. $61

BLAST! Babysitting
Babysitter Lessons and Safety Training provides the foundation for this interactive babysitter training class designed by the American Academy of Pediatrics. Prepare yourself for the challenges of babysitting and the responsibility of caring for a child’s needs and safety. Topics include Basic Child Care, Safety and Injury Prevention, First Aid Basics, and Child-proofing the Home. Includes take-home manual.

Instructor Name: Cora Seaman

550 12172L081 5 sessions MTWThF Jun 9 - Jun 13 2:30-4:30 P.M. $59
Cartoon Art
Learn cartooning skills such as drawing people, animals, and inanimate objects. Learn texturing and stippling techniques and several lettering styles. You will create your own characters and add storylines concluding with an original comic strip.
Instructor Name: Kristi Bryant
580 12117L081 5 sessions MTWThF Jun 9 - Jun 13 12:30-2:20 P.M. $55
580 12118L081 5 sessions MTWThF Jul 28 - Aug 1 10 A.M.-Noon $55

Chemical Concoctions
Chemistry is the study of the way materials are put together and how they act under various conditions. In this hands-on chemistry class, you will experience the mysteries and methods of chemistry through simple and exciting experiments, exploring chemical properties by creating and observing actions and reactions.
Instructor Name: Kim Foltz
580 12177L081 5 sessions MTWThF Jun 9 - Jun 13 12:30-2:20 P.M. $70
580 12178L081 5 sessions MTWThF Jul 7 - Jul 11 12:30-2:20 P.M. $70

Digital Photography
Learn the secrets of digital photography, including composition and lighting. For a more enjoyable experience, bring your own digital camera. Find out how to use the special features of your digital camera. Discover the possibilities of digital imaging.
Instructor Name: Bonny Warner
580 12189L081 5 sessions MTWThF Jul 7 - Jul 11 2:30-4:30 P.M. $55
580 12190L081 5 sessions MTWThF Jul 28 - Aug 1 2:30-4:30 P.M. $55

Electronics
Simple circuits provide the framework for many of the devices we use every day. Find out what it takes to make them work, design circuits, using capacitors, resistors, and more. Learn basic soldering techniques. Includes take-home project!
This course must be completed before enrolling in Robotics.
Instructor Name: Doyle Woodward
Location: TBA
550 12188L081 5 sessions MTWThF Jun 9 - Jun 13 10 A.M.-Noon $81
550 12189L081 5 sessions MTWThF Jul 7 - Jul 11 10 A.M.-Noon $81

Fashion Design: An Introduction
Learn how the couture makes things happen! Take the designs that you see in your head and put them down on paper. You will learn directly from a fashion design professional how to pull your ideas together with color and styles. You’ll also learn about different styles, what styles look best on different body types, fabric texture and color schemes, how to find the right fabric for your designs, what tools are needed in this field and how to use them. Get a jump start on your dream career in fashion! Includes take home project.
Instructor Name: Cora Seaman
Location: TBA
550 12173L081 5 sessions MTWThF Jul 28 - Aug 1 12:30-2:20 P.M. $69

Forensic Science
Enter the world of evidence collection and assessment as you work to solve a new mystery each day! Engage in the processes of Science-as-Inquiry as you gather data, think critically and logically about relationships between evidence and explanations, construct and analyze alternative explanations, and communicate scientific arguments.
Instructor Name: Rick Reed
Location: TBA
550 12185L081 5 sessions MTWThF Jul 7 - Jul 11 2:30-4:30 P.M. $51
550 12186L081 5 sessions MTWThF Jul 28 - Aug 1 10 A.M.-Noon $51

iLife GarageBand: Produce your own professional-looking musical production!
Perform, record, and create original music using this iLife software. Sing as you play musical instruments, harmonize with other students and record every note! Enhance the tuning and timing of recordings, design your own CD cover to create your own personalized musical creation! Let out that inner rock star!
Instructor Name: Kim Foltz
Location: TBA
550 12173L081 5 sessions MTWThF Jun 9 - Jun 13 10 A.M.-Noon $53
550 12174L081 5 sessions MTWThF Jul 7 - Jul 11 10 A.M.-Noon $53

iMovie Magic
Use iMovie software to create your own movies, complete with titles, transitions, soundtracks, and special effects. Once your movie is complete, it’s easy to export to DVD, Internet, email and mobile playback. Learn the tricks to becoming a movie cinematographer! Take your movies home on a CD or DVD.
Instructor Name: Matt King
Location: TBA
580 12163L081 5 sessions MTWThF Jun 9 - Jun 13 8-9:50 A.M. $53
580 12164L081 5 sessions MTWThF Jul 7 - Jul 11 8-9:50 A.M. $53
550 12162L081 5 sessions MTWThF Jul 28 - Aug 1 8-9:50 A.M. $53
Lego® Robotics
Experiment with Legos by building a robot and performing robotic activities. Participants will simulate real-life mechanisms and use creativity, design, logic, and problem-solving skills to meet challenges with today’s technologies.

Instructor Name: Harold Welch

550 12195L081 5 sessions MTWThF Jul 7 - Jul 11 12:30-2:20 P.M. $51
550 12196L081 5 sessions MTWThF Jul 28 - Aug 1 12:30-2:20 P.M. $51

Martial Arts
This exciting course will include Taekwondo fundamentals, with additional focus on dealing with strangers and the appropriate way to handle bullying. There will be emphasis on flexibility, and general conditioning. The class will be both physically and mentally challenging!

Guys and girls are welcome!

Instructor Names: Lori Stanley-Certified Instructor, 7th Degree Black belt - June Classes. Mike Parks-Certified Instructor, 6th Degree Black belt - July Classes.

550 12151L081 5 sessions MTWThF Jun 9 - Jun 13 12:30-2:20 P.M. $51
550 12152L081 5 sessions MTWThF Jul 7 - Jul 11 12:30-2:20 P.M. $51
550 12153L081 5 sessions MTWThF Jul 28 - Aug 1 12:30-2:20 P.M. $51

Math Mastery
Don’t let math get the best of you! Master this subject matter and take charge of the math in your life! This class is designed to teach you tips and tricks to working with numbers. We’ll look at how numbers interact with each other and how they work together to put order in our world.

Instructor Name: Pam Leadingham

580 12197L081 5 sessions MTWThF Jun 9 - Jun 13 2:30-4:30 P.M. $51

Math Wizardry
Are you awesome at math? Take this fun course of applied mathematics and learn how to design a house, calculate the cost of living on your own, create a math curriculum, invent an advertising campaign, learn how to estimate and how to reason out a problem aloud, solve time problems, go on a shopping spree and more. This course includes some computer activity.

Instructor Name: Pam Leadingham

550 12116L081 5 sessions MTWThF Jun 9 - Jun 13 12:30-2:20 P.M. $51

Medieval Heraldry
Join us for a whirlwind tour of the pomp and pageantry of the Middle Ages! Immerse yourself in the languages and history that comprise the Age of Knighthood. Learn about “emblazoned devices” and create your very own unique “period device.” It’s all about court, combat, and competition!

Instructor Name: Kim Foltz

550 12193L081 5 sessions MTWThF Jun 9 - Jun 13 2:30-4:30 P.M. $51
550 12192L081 5 sessions MTWThF Jul 7 - Jul 11 2:30-4:30 P.M. $51

Model Rocketry
"Rocket Science" isn’t as difficult or exclusive as most people think! You can be among the thousands of people throughout the world who are building and launching rockets without the benefit of engineering degrees. Build your own model rockets, then launch and recover them right here at Ivy Tech. Includes two take-home rockets and launcher. Repeat Students: note on enrollment form for advanced rockets.

Instructor Name: Timothy Jones

580 12120L081 5 sessions MTWThF Jun 9 - Jun 13 10 A.M.-Noon $85
550 12129L081 5 sessions MTWThF Jul 7 - Jul 11 10 A.M.-Noon $85

Pets & Vets
Caring for pets, making a bird feeder, learning about endangered species, assembling a beta fish bowl, and discovering the duties of a vet are some of the educational, creative, and fun activities in this unique class. Learn animal behavior facts, tricks, tips on grooming, feeding, and becoming a responsible pet owner. Develop sensitivity and skills so that you make a difference in protecting animals and pursuing a possible career. Laura Wagner, DVM, will share her experiences as a veterinarian.

Instructor Name: Pam Clayton

550 12144L081 5 sessions MTWThF Jun 9 - Jun 13 8-9:50 A.M. $65

NEW! Red Hot Ballroom Dance!
Come and learn the latest in dancing for middle-school students! This class will offer Ballroom, Swing, Latin, Disco/Hustle and a variety of other dance styles taught by a local dance professional! The music in this class will include much of today’s popular contemporary music, as well as some traditional dance music. Warm-up exercises in proper techniques will be demonstrated. Encourage a friend to join you! Guys and girls are welcome. Tennis shoes or dance shoes required.

Instructor Name: Angie Hohl, professional dance instructor.

550 12157L081 5 sessions MTWThF Jun 9 - Jun 13 10 A.M.-Noon $51
550 12158L081 5 sessions MTWThF Jul 7 - Jul 11 10 A.M.-Noon $51
550 12159L081 5 sessions MTWThF Jul 28 - Aug 1 10 A.M.-Noon $51
Robotics
Prerequisite: Students must have completed Electronics before taking this course.
Discover the world of robotics, automated systems, and their operating characteristics as you build your own robot this summer at Ivy Tech. You will use your problem-solving skills and study the fundamentals of electronics and engineering as you build and program your very own personal robot. Requires soldering skills. Includes take-home robot. Class limited to 14-year-olds only.
Instructor Name: Doyle Woodard
550 12149L081 5 sessions MTWThF Jun 9 - Jun 13
8-9:50 A.M. $75
550 12150L081 5 sessions MTWThF Jul 7 - Jul 11
8-9:50 A.M. $75

Small Engine Repair
If you enjoy working with tools and are interested in how and why engines run, this is the class for you. We'll disassemble an engine and find out how each part fits into the whole. Then we'll reassemble it and discover how it all works together to convert gasoline to power. While we work, you will learn small engine theory and the mechanics of ignition and carburetion. Class size is limited to 10 students.
Instructor Name: Mark Warner
550 12125L081 5 sessions MTWThF Jul 7 - Jul 11
2:30-4:30 P.M. $61
550 12126L081 5 sessions MTWThF Jul 28 - Aug 1
2:30-4:30 P.M. $61

Success Strategies
Learn the secrets to success in school and in life in this course. Begin with attitude and self-esteem. Discover how to build time management, organization, responsibility, and money management on that foundation. Find out how to study for success. Discover your learning style and effective techniques you can use to remember material. Learn to study, read for comprehension, take notes, and prepare for tests.
Instructor Name: Tasha Morgan
590 12118L081 5 sessions MTWThF Jul 28 - Aug 1
2:30-4:30 P.M. $51

Teen Cuisine
We're cooking up some fun! The Teen Cuisine workshop is designed to help you combine your artistic skills with cooking to present an attractive, unique, and flavorful lunch. You will be cooking your own lunch each day!
Instructor Name: Pam Clayton, Tasha Morgan
580 12101L081 5 sessions MTWThF Jun 9 - Jun 13
10 A.M.-Noon $75

Learn the basic principles and terminology of the Access® database, followed by hands-on experience creating and manipulating a table and table data.

Supplies/Cost: Disk included in course cost
Instructor Name: Kevin Gentry

Location: Ivy Tech, Room 122

540 12152L081 2 sessions Mon Jun 16 - Jun 23 6-9 P.M. $115

Intermediate Microsoft Access
This second of three courses is the next step for students seeking to continue their studies in Access. Students interested in enrolling need to have a good understanding of all basic areas of Access, including how to navigate around the program. Topics include data extraction, building and customizing forms, creating and modifying queries, and report generation. Students will complete a project to reinforce these skills.

Supplies/Cost: Disk included in course cost
Instructor Name: Kevin Gentry

Location: Ivy Tech, Room 122

540 12154L081 2 sessions Wed Jul 9 - Jul 16 6-9 P.M. $115

Advanced Microsoft Access
This final course will provide you with the finishing touches on your understanding and practical applications of the Access program. Skills learned in Intro to Access and Intermediate Access will be required to succeed in this class. Topics include sorting data, complex query definition, complex form design, advanced report generation, SQL, Visual Basic, HTML, and Macros.

Books/Cost: Access Source Guide. Estimated at $6
Supplies/Cost: Disk included in course cost
Instructor Name: Kevin Gentry

Location: Ivy Tech, Room 122

USING ONLINE SKILLS

Introduction to PC Troubleshooting
Are you ready to dive under the hood of your PC? Introduction to PC Troubleshooting takes you step by step through the typical hardware and operating system problems encountered by technicians, and teaches you troubleshooting techniques to decipher any problem and give you the skills you need to solve them. Once you’ve mastered the basics, the course launches into some of the more advanced and nasty problems that sometimes crop up in the PC, teaching you how to diagnose and fix those problems. Finally, this course will show you how to maintain and optimize a PC.

Tuition $99 On-Line: www.ed2go.com/ivytech-evv

Creating a Home or Small Office Network
Create your own small office network using Windows XP Professional Edition. Slash expenses and improve efficiency by learning how to share printers, Internet connections, drives, and documents. You’ll learn what hardware you will need, how to configure Windows XP Pro to run your small network, how to configure printers and other peripherals, and how to manage and maintain your network and keep it secure.

Tuition $99 On-Line: www.ed2go.com/ivytech-evv

Introduction to Networking
Businesses, schools, and other organizations are becoming increasingly reliant on computer skills, which explain why workers with networking skills are in high demand. If you’d like to learn the fundamentals of computer networking in terms you can easily understand, this course is for you. Learn why networks have become so important, how software and hardware makes networking possible, and how networks function. This course will give you the foundation you need to begin training for CCNA Certification or employment in a computer networking career.

Tuition $99 On-Line: www.ed2go.com/ivytech-evv

SHORT BUSINESS COURSES

Ivy Tech and the Southwestern Indiana Small Business Development Center (SBDC) are pleased to co-sponsor this exciting seminar for the entrepreneur. This two-hour seminar presents the opportunities and challenges of starting your own small business.

First Steps to Entrepreneurship
This exciting workshop is a great starting point for anyone considering opening a business. During a fast-paced two hours, we help potential entrepreneurs assess their readiness, consider the environment for a new business, and reveal critical resources for new entrepreneurs. Bring your questions, discuss problems and network with other potential entrepreneurs. Everyone leaves with a wealth of take home information and a business feasibility CD-ROM!

Books/Cost: Handouts and Business Feasibility CD included in seminar cost

8 A.M.-1 P.M. $69

ServSafe Certification Course
ServSafe is a nationally recognized food safety program developed by the foodservice industry. Indiana law requires food borne illness protection training of at least one food handler per establishment. For your customers, safe foodservice is a matter of trust. For you, keeping that trust is a matter of survival. ServSafe is the most universally recognized food handler certification course accepted by the state, county, and municipal health authorities that require sanitation training of foodservice managers. The examination is one of only four exams that meet the Indiana certification requirements. Exam is included in course cost. Exam only can be arranged.

To the best of my knowledge, the above information is complete and accurate. In case I am injured, I authorize the officials of the College to take the necessary actions to save my life. I agree to comply with the practices of Ivy Tech. I understand that if I knowingly provide false information including my social security number, my enrollment may be revoked and I may incur fines and IRS penalties. I authorize Ivy Tech Community College to report my academic progress to each other and partner high schools or universities for the purpose of research, evaluation, or transfer opportunities. I further authorize Ivy Tech Community College to report to each other any information related to my eligibility for financial assistance, or student status. If for any reason my fees and charges are not paid by my financial aid or third party, I promise to pay to the order of Ivy Tech Community college the full amount of the balance due upon request. It is understood that costs incurred in the collections of a delinquent account, including collection and attorney fees, shall be added to the balance of the delinquent account. It is also understood that lack of payment may result in being withdrawn and prohibited from registering for future terms.
